

# Supported Projects: Streets Alive Stream 1 2024

## City of Bayswater

### Trial semi-permanent alfresco furniture to activate street – Beechboro Road South

#### PROJECT SUMMARY

To trial semi-permanent alfresco street furniture at Beechboro Road South and the corner of Foyle Road/Beechboro Road South support a revitalization project to enhance the area and calm traffic. The project involves collaborating with multiple community stakeholders and the local government in a vision for a future permanent installation.

## High Streets Belmont Town Team

### Belvidere Street Calming Project

#### PROJECT SUMMARY

A series of wall murals along Belvidere Street in Belmont that aim to calm local traffic and improve walkability. The murals will be co-designed and installed by community and a local artist.

## Sustainable Bayswater Town Team

### Magic Mephan

#### PROJECT SUMMARY

Sustainable Bayswater to pilot temporary street safety improvements along Mephan Street in Maylands. The project will introduce kerb extensions, new footpaths, and pedestrian refuge crossings using temporary street furniture, planter boxes, and paint. Engagement activities to increase road safety awareness.

## The Baysie Rollers Town Team

### 5-7 King William Street Car Park Project – Stage 3

#### PROJECT SUMMARY

The design and completion of a car park mural to complement a series of street calming interventions being installed on King William Street to make the Bayswater Town Centre more pedestrian-friendly.

## Valuing Children Initiative

### Bassendean Play Street Project

#### PROJECT SUMMARY

Research into the road safety experiences, attitudes, behaviours and concerns of children, parents and community in Bassendean. Two workshops will be held, one for children aged 0-6 and one for children aged 7-15, to gather insights and co-design street calming solutions. The outcomes and recommendations will be summarised into a report and shared with the Local Government and community for further development.
