

# Supported Projects: Streets Alive Stream 1 2024

## Booragoon Town Team

### Bull Creek to Fremantle Safe Cycling Route/Trail

#### PROJECT SUMMARY

The Bull Creek to Fremantle Safe Cycle Route/ Trail project aims to develop a safer cycling route between Canning and Leach Highways in the City of Melville, aligning with the Western Australian Bicycle Network Plan to further promote safe active travel.

## Brentwood Village Town Team

### Brentwood Comes Alive

#### PROJECT SUMMARY

A series of signage and kerb art installations at Brentwood Village at the intersection of Cranford Avenue and Moolyeen Road that aim to increase road safety and calm local traffic, while connecting local community. These will be designed and installed by the local and school community. An activation event will be held to increase awareness of road safety issues.

## Cannington Community College

### Wharf Street Safety Initiative

#### PROJECT SUMMARY

To engage the school members and community for research on road safety issues to inform design and installation of footpath art on Wharf Street. The project will conclude with an activation event to celebrate the collaboration and raise awareness of road safety.

## East Victoria Park Primary Schools Parents and Citizens' Association Incorporated

### Stride & Ride: Safe Routes to School

#### PROJECT SUMMARY

To install a traffic calming trial of signage, and engage in first aid training of traffic control staff, to enhance road safety and promote active transport for students at East Victoria Park Primary School and East Victoria Park Education Support Centre. To develop an Action Plan for future improvements for road safety for school commuters.

## Hilton Precinct

### Oldham Street Traffic Calming Activation

#### PROJECT SUMMARY

The installation of a painted footpath on Oldham St near Grigg Park as a traffic calming feature, to improve road safety and enhance community vibrancy, with a view to expand after trial. A community engagement event will be held to foster collaboration between local councils, MRWA, PTA, and residents.

## Fremantle Industrial Arts Quarter

### FriAQ Show

#### PROJECT SUMMARY

To install a traffic calming feature of footpath art along Montreal and Blinco Streets to connect the community, slow traffic, and enliven the streets along with a launch event.

## Hilton Primary School P&C Association

### HPS Street Verge Project (Hilton)

#### PROJECT SUMMARY

To design and install a garden, verge design, and signage through community collaboration to improve road safety and slow traffic around Hilton Primary school.

## Manning Town Team

### Welcome to Manning

#### PROJECT SUMMARY

To install traffic calming features of art on footpaths and roundabouts that complement the "Safe Routes to School" initiative to improve road safety in a high pedestrian area on Welwyn Avenue, Manning.

## Rocky Beach Town Team

### Slowing Speeds @ Rocky Beach

#### PROJECT SUMMARY

To install signage to increase safety in shared spaces with e-riders at the main intersection of Patterson and Parkin Streets in coordination with the local high school. Develop an Action Plan for traffic calming measures on Rockingham Beach Road and Wanliss Street.

## Wellard Village People

### Stayin' Alive

#### PROJECT SUMMARY

To engage in research with local stakeholders, including community forums, to inform an Action Plan to improve road safety and promote traffic calming, with a long term vision of improving road safety in the Town Centre of Wellard village.

## Kardy Connect Town Team

### Kardy Reflect & Connect

#### PROJECT SUMMARY

Kardy Connect will initiate a project to enhance active travel in Kardinya by researching local roads and connections. Local champions from each of the four areas will help engage the community and gather insights on popular routes and safety issues. The resulting map will highlight safe routes, distances, and local tips, focusing on routes to schools to be launched during Bike Month.

## Pally 6157

### Streets of Pally

#### PROJECT SUMMARY

To research traffic behaviours on McKimmie Road (from the corner of Marmion Street) and the intersection at Carrington Street and Tamar Street to inform an Action Plan. The initiative will be carried out by the local community in Palmyra with coordination of local community groups and area business owners to increase road safety and promote active travel.

## Vic Park Collective

### Vic Park Safety Street Art Trial

#### PROJECT SUMMARY

To install temporary asphalt decals, on Kate St. in East Vic Park. The initiative will be used to inform research on measuring road safety and traffic calming to create an Action Plan for a permanent road mural.

## City of Canning

### Riverton East Project

#### PROJECT SUMMARY

The objective of the project is to seek the community's input on road safety and public realm improvements around the Riverton Drive East local centre by hosting local community engagement events. These events will be used to inform a design and concept plan for Riverton Drive East, and will provide collaborative research for further Streets Alive funding applications.
